**Readorium Named SIIA Education Technology CODiE Award Finalist for
Best Cross-Curricular Solution**

Readorium Scholar and Readorium Rising Reader earns prestigious industry recognition

Teaneck, NJ (June 12, 2017) Readorium by Mtelegence, an automatically adaptive, web-based science reading comprehension program, today announced that *Readorium Rising Reader* (grades 3-5) and *Readorium Scholar* (grades 6-8) was named a 2017 SIIA CODiE Award finalist in the Best Cross-Curricular Solution category.

Readorium fosters deep science expertise by teaching students at all skill levels how to use proficient reading strategies and word learning skills to construct meaning of the same substantive, grade-appropriate content. Each Readorium chapter book has a personal mentor who demonstrates the strategic thinking needed to understand that text and helps students at points of confusion with scaffolded hints. Text levels and instructional supports automatically adjust to each student's needs based on responses to questions as they read. Suggestions for motivation come from students themselves, and the program features gaming, humor, choice, music, and challenges. Teachers receive actionable reports on how well students use specific strategies coupled with prescribed classroom activities.

The [SIIA CODiE Awards](#) are the premier awards for the software and information industries, and have been recognizing product excellence for over 30 years. Readorium was honored to be selected as one of CODiE's award finalists.

"I am impressed by the level of innovation and creativity demonstrated by the 2017 CODiE award finalists. These products are opening doors for learners of all ages by combining new technologies with research about how people learn in order to respond to student and educator needs." said Bridget Foster, Senior Vice President and Managing Director of the Education Technology Industry Network (ETIN), a division of SIIA.

Harriet Isecke, Readorium's CEO and Founder said, "*Readorium is honored to have received the CODiE award for Best Reading/English/Language Arts Solution in 2016 and to now be selected to be a finalist in the 2017 Best Cross-Curricular Solution category.*"

Details about each finalist are listed at <http://www.siia.net/codie/Finalists> Winners will be announced during a [CODiE Award Winner Ceremony](#) in San Francisco on July 26 at the Education Impact Symposium, hosted by the Education Technology Industry Network (ETIN), a division of SIIA.
